Corner Second and Main Sts.,

Newcomb Block, DAVENPORT, IA.

# Sight is Priceless!

### WHY NEGLECT IT?

### Prof. ANDERSON.

Graduate of the London Optical Institute, and located at 57 Washington street, Chicago, is stopping at the Harper House, this city. Has all the latest improvements for examing and testing. Ophthalmoscopic examinations made in children who cannot use judgment in answering questions.

No charge for consultation or advice. No exorbitant prices. It requires differently constructed lenses for the scores of different defects. You can see the force of these remarks.

In my youth I had excellent sight, but toward middle age my sight began to wane. I kept on buying glasses here and there, and though I could see better with them than without them, yet, after reading awhile, my eyes felt drawn and uneasy, sometimes feeling a pain above the temples and other distressing aches. I consulted Prof. Anderson, and now my sight is as good as it ever was. I cheerfully recommend him to all. Dr. J. O. Harris, 29 Main Street, Ottawa, Iil. I am a physician and have been in practice in Ottawa for the last 30 years.

When I was a boy my sight was none too good. When I was 40 years old it became vastly worse, and I could not see distinctly at any distance. I consulted Dr. Anderson, and I can now see better than ever I did in my life. I say success to him. DR. L. DYER Ottawa, Ill. A reporter met Samuel Parr on Madison street yesterday, and noticing the happy expression on his countenance and the things he had on his face, ventured to remark: 'Mr. Parr why those glasses, and why that happy expression on your face?' "Well, sir, I will tell you why," said Mr. Parr, smiling graciously upon me, "the one is to see with and the other is to let it be known that I can see. If you

had suffered as I have, and felt greatly relieved as I do now, you would surely smile too." Mr. Parr said he has taken from school when a mere boy, and as a consequence had received almost no education, though his father was well off and intended him for the bar. He went to farming at Rutland, three miles out of Ottawa, and has been at it 20 years. He said if he did not know where the Professor lived and could not get another pair, that money could not buy them. After reading a little, his eyes run water, his head ached and sometimes felt heavy. As a parting shot he glanced at the reporter and said he could count every hair in his (the reporter's) mustache. - Ottawa Journal.

[The above is true, as any one can find out by writing S. E. Parr, Ottawa, Ill ] I cannot say what the Professor has done for me, but one thing I do know, that whereas I was blind, almost blind, now I see. Mrs. S. M. PORTER, Aurora, Ill. If a word of commendation from me will be of any assistance to those afflicted with defective sight, I have no hesitancy in adding my name to the many who have so highly testified to the ability of Prof. Anderson as an Optician. I have put him to tevere tests by bringing him cases that were considered very difficult by Chicago oculists, and now the patients can see by his method as well as ever.

DR. S. D. POLLOCK. Galesburg, Ill.

I treated a lady for several months who suffered from headaches, dizziness and imness of vision, and after prescribing all the medicines known to science, I heard that Prof. Anderson was in town, and sent her to see him. He gave her glasses, and since that time she has been a happy woman. Beyond a doubt he is master of his business, and I cheerfully recommend him to all. DR. W. T. PATTERSON, Aurora, Ill.

I have no one traveling with me, and any one claiming to act as my agent is a fraud.

Having engagements elsewhere, the Professor will remain but a short time. All suffering from complicated vision had better call at once.

PROF. ANDERSON.
